- 1. Add 2.7" (69mm) to channel invert for Brickslot invert
- 2. Brickslot can also be used with H80K and H100K
- 3. Only access cover can be removed once Brickslot has been installed

### Specifications

**General**

The surface drainage system shall be ACO Drain Brickslot, as manufactured by ACO Polymer Products, Inc. or equal approved.

**Materials**

The Brickslot top is manufactured from 11 gage galvanized steel.

The nominal clear opening for Brickslot slot is 7/16" (11mm) with overall width of 4.84" (123mm). Tapered slot prevents debris from being trapped. For use with K100S\* or H100K\* channels. See separate ACO Spec info sheet for channel details. Brickslot is secured by 'QuickLok' boltless locking system. Access units have frames that fit catch basin or channels with a separate cover unit that can be removed for maintenance.

**Installation**

The trench drain system shall be installed in accordance with the manufacturer's installation instructions and recommendations.
