

High profile, 2" opening, polymer concrete trench drain system with galvanized or stainless steel edge rail

Typical applications

- Shopping malls
- Pedestrian areas
- Sidewalks
- High profile projects
- Pool areas

PROBLEM SOLVER

MiniKlassik K50 - Galvanized steel edge rail, trench drain system MiniKlassik KS50 - Stainless steel edge rail, trench drain system

The MiniKlassik is a modular, interconnecting trench drainage system with a 2-inch internal width.

Each meter long channel has a 1.5" Sch. 40 drill-out to allow vertical evacuation at the male end of the channel at any point along the run.

Closing caps are available to complete the system.
